### **DETAILED ACTION**

All of the X-references cited in the International Search Report have been considered. The most pertinent of these references have been applied below.

### ***Election/Restrictions***

The applicant has elected Group I (claims 1-6) without traverse.

This restriction is made FINAL. See previous action for the reasons of applying restriction.

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. See MPEP § 2173.05(c). Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required

feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949).

In the present instance, claim 1 recites the broad recitation  $r$  represents 0 or  $>0$  of formula (3), resulting in a homopolymer or copolymer. However, formula (3) is also defined as a copolymer, a narrower limitation that would not include a homopolymer species. For examination purpose, the broader limitations are considered based on the principle of broadest interpretation of claims.

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Onodera et al. (JP2002044343) listed on ISP and IDS.

As to claims 1-6, Onodera (Abstract, claims 1-4, 0001-10, 0014-20, Ex.1-2) discloses a process of producing a polyarylene homopolymer or a copolymer comprising polyarylene segments having side groups of sulfonic acid or a salt thereof, wherein the copolymer repeating units=10-100k. Onodera discloses the polymerization of 2,5-dichlorobenzene sulfonic acid, in presence of 2,2'-bipyridyl, and using Nickel(0)bis(cyclooctadiene) as catalyst at 60 °C.
